	1. Compliance to better understand what the pdf compliance requireme[...]
	2. Page/Font/File Settings to begin preparing the document.
	3. Depending on how you are preparing your manuscript,
	   a. LaTeX Support or
	   b. MS-Word Support,

Here you will find template files for your conference and instructions

IEEE PDF eXpress. IEEE PDF eXpress is a service provided by IEEE to p manuscript source files may be uploaded for conversion to IEEE compliant to avail themselves of this service need an account at IEEE PDF eXpress a conference website for details.

Test your pdf file

After preparing the manuscript and converting it to PDF, you should Test y links to see how to resolve typical reasons for documents failing the PDF c

1. "Font" Not embedded error: Encountered in both LaTeX and Word d
2. Bitmapped Font error: Typically encountered using LaTeX. See also
3. Oriental Language Font error: Typically encountered using Word.

We have noticed that a few software packages invariably break down the c Please note that using these packages will likely delay preparation of confe

1. Scientific Word/Workplace: If you are using graphics in your docume will not show some of them.
2. Scientific Word/Workplace: Due to the font encoding used in the sys Such files will need to be replaced, delaying the conference proceed
3. DVIPDFM: This is one of the popular dvi -> PDF conversion package if you have images in your document, when the resulting PDF file is require that you resubmit your paper.
